This Two Toilet Trailer can have a gravity sink (not pictured) mounted on the side or in the units and will have a grey water waste line drain with a three way directional valve that can direct the water to drain either on the ground (where permitted) or into the portable toilet holding tank.

The price for the Sani Jon® Model SJ 450 Heavy Duty toilet trailer with either an external gravity flow or internal foot pump sink is: **by quote** each plus freight. The unit is shipped with all components assembled and all of the materials needed to finish the mounting of the toilets and sink to the trailer. Same trailer with Model GJ 350 Medium Duty portable toilets is **by quote** each plus freight.
